

## **NET STABLE FUNDING RATIO**

Axis Bank, pursuant to the RBI guidelines on NSFR dated 17<sup>th</sup> May 2018, has been subjected to the Basel III NSFR standards from 1<sup>st</sup> October 2021. The Bank maintains NSFR both at solo and consolidated level.

NSFR aims to improve the resiliency of banks by promoting long-term funding stability. It mandates banks to maintain a stable funding profile vis-à-vis the composition of their assets and off-balance sheet activities. It reduces the probability of erosion of a bank's liquidity position due to disruptions to its regular sources of funding. The NSFR guidelines of RBI stipulates the applicable Required Stable Funding ("RSF") factor for each category of asset and Available Stable Funding ("ASF") factor for each type of funding source. NSFR represents the ratio of the bank's ASF to RSF. The breakdown of the bank's ASF and RSF amounts after applying the respective ASF or RSF factors are provided in the "weighted amount" column of the NSFR disclosure format.

The ASF portfolio is driven mainly by a robust capital base, retail deposit base along with reliable wholesale funding. After applying relevant factors, the contribution of the capital base, retail deposits and wholesale funding to the ASF portfolio stood at 17%, 48%, 31% respectively. The RSF portfolio is driven mainly by financing various stakeholders including but not limited to financial institutions (FIs), non-financial corporate clients, retail and small business customers. The High-Quality Liquid Assets (HQLA), detailed in the LCR disclosure, requires minimal funding due to its superior ratings and liquidity, thus after applying relevant factors it makes up merely 2% of the RSF portfolio whereas performing loans and securities account for 82% of RSF.

NSFR is sensitive to (i) composition of assets and liabilities and (ii) movements due to positions falling / moving into the NSFR 1-year tenor.

The Bank ensures that its NSFR remains above the specified regulatory minimum requirements as under.

- (i) Daily monitoring of NSFR against the regulatory minimum.
- (ii) Maintaining a diversified funding base.

The following table sets out the unweighted and weighted value of the NSFR components of the Axis Bank Group at Dec 31, 2022 (i.e. quarter-end observation).
